

# Frozen Planet!

Stunning Start – Our term will begin with a strange package arriving in our classroom. Can we work out where it has come from? Wrap up warm, it will be chilly!

We will explore the book 'Lost and Found' by Oliver Jeffers and find out about a little boy who found a penguin on his doorstep.

Have you ever watched a weather report? We will be recording the weather in Rusthall and learning about the UK's seasons.

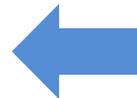

How can we help the lost penguin find his way back to Antarctica? We will use maps to find out the location of the North and South Poles and what they might be like.

*We will explore the good news that Jesus brought and how Christians remember these teachings in their daily lives.*

*We will explore animals including humans in our science lessons.*

Now let's help someone else make a pizza! Can you remember the steps we followed so we can write our own instructions?

Marvellous Middle – What might we need for an expedition to Antarctica? Let's make a Pizza that can give us the energy we need for a mini expedition.

Time to write our own versions of the story 'Lost and Found' and to create our very own books.

*We will explore making our own animated storybooks in ICT.*

There will be an exciting opportunity for you to listen to a range of music and explore how this makes us feel.

Let's develop our art skills by sketching Antarctic animals and creating our own paintings of the landscapes of Antarctica.

Fabulous Finish – come and view our wonderful art work in our celebration gallery! We look forward to welcoming you and sharing our learning with you.

### Join in

If you would like to join us on our learning journey at home, here are some ideas to help.

### Reading

*Other stories by Oliver Jeffers*

- *Up and Down*
- *The Way Back Home*
- *Stuck*

*Other stories about penguins*

- *The Emperor's Egg by Martin Jenkins*
- *Without You by Sarah Weeks*

### Doing

- *Make a 3D Antarctic animal*
- *Create a fact file about Antarctica*
- *Find out about some other cold areas of the world e.g. the Arctic*

### Watching

- *Newsround clips about Antarctica and penguins*

<http://www.bbc.co.uk/cbbc/watch/p0208632>

### Home Learning

Home learning will consist of English, maths and one learning challenge.

English and maths will consist of ongoing key skills to be completed little and often.

The children will be assessed on the skills they have been learning for homework in class and there is no need to hand in written work for these elements.

For the learning challenge, children will be expected to hand in a completed piece of home learning but they will often have the choice of how to record it.

Home learning will be given out roughly every three weeks. The hand in date will always be on the home learning sheet.

### Routines

#### Book Bags

Please ensure book bags and reading records with reading books are in school every day.

#### Reading

It is really important for your child to read every day to build confidence and fluency.

Please record when they have read and any comments you may have.

#### Water bottles

Please ensure your child has a named water bottle in school every day.

#### PE

Please have full PE kit in school at all times.

Children may wear blue jogging bottoms and sweatshirts for colder weather.

#### Collection

If your child is being collected by someone else, please give a message to the teaching assistant on the door. They will pass this message on to the class teacher.
